

# DOMAINE WILLIAM FEVRE

GRAND VIN DE CHABLIS

## PREMIER CRU VAULORENT DOMAINE 2020

The steep and rocky slopes stretching to the right and left of the Serein are the cradle of a history over one hundred and fifty million years old. A unique Kimmeridgian terroir, an alternation of marl and marly limestone, endows Chablis wines with a mineral character and immense freshness. A typicity that is envied, often imitated but never equalled. As incomparable and admirable as it may be, a terroir can only fully reveal its potential through the work of people. At Domaine William Fèvre, everything is done, regardless of the level of appellation, to express the authenticity of the Chablis terroirs.

### VINEYARD ATTRIBUTES

**Appellation** : AOC Chablis Premier Cru Vaurent, Bourgogne, Chablis, France

Appellation of 17 hectares on the right bank of the Serein, in the exact continuation of the Grands Crus slope, separated by a simple path from the Grand Cru Les Preuses, the appellation produces powerful and mineral wines.

**Terroir** : Marl with fairly deep soils. The plots cover 3.63 hectares, representing 21.35% of the Vaurent appellation, oriented from southeast to southwest.

### VINTAGE SUMMARY

After a mild and wet winter, we observed an historically early bud break mid-March. It was followed by a very cold, dry, and windy period at the end of March, with frosty nights, which fortunately didn't impact our vineyards. This episode was followed by high temperatures, particularly in April, which accelerated vine growth. In the later-ripening areas, flowering finished around May 28-30. After a wet June, July turned very dry with two heatwaves at the end of July and the beginning of August, causing sunburn on the most exposed grape clusters. The alternation of heat and light rain in early August accelerated ripening, allowing harvest to begin on August 25.

### WINE MAKING SCHEME

Application of the principle of gravity to avoid any pumping, which could alter the quality of the wine. Short-duration pneumatic pressing (1.5 to 2 hours) for a delicate separation between the solid and liquid parts of the grapes. The vinifications are carried out in stainless steel vats. Aging lasts 19 months, including 5 to 6 months on fine lees in French oak barrels for 40% of the blend. The aging process finishes in small stainless steel tanks.

### TASTING NOTES

Powerful nose combining citrus aromas and white-fleshed fruit with a typical mineral note of the appellation. Rich and concentrated, the palate offers remarkable freshness and length.

#### TECHNICAL INFORMATION

**Varietals** : Chardonnay 100%
