

## CABERNET SAUVIGNON GRAN RESERVA 2018

At Los Vascos, generation after generation, we dedicate ourselves to caring for our vineyards and orchards, preserving our unique ecosystem. We are committed to our land and to the well-being of our rural community. Together, we cultivate to sow the future.

### ■ VINEYARD ATTRIBUTES

**Appellation :** Colchagua, Chile

Stretching from the Coastal range to the foothills of the Andes mountains, Colchagua's Mediterranean climate and privileged terroirs have made it a place of choice to produce quality wines in Chile. Los Vascos estate lies at the foothills of the coastal range, 200km South West of Santiago, in the cooler part of Colchagua where the vines benefit from the natural cooling influence of the Pacific Ocean.

**Terroir :** The cabernet sauvignon for the Grande Reserve is sourced from selected plots planted on the foothills of the mountains, as well as some of the older vines from the best plots in the heart of the estate.

### ■ VINTAGE SUMMARY

Cromas Gran Reserva is an evolution of the Grande Réserve. With the name Los Vascos Cromas we were inspired by the colours of nature to reflect how this wine express the message of the soil it is coming from and the know-how of the Los Vascos team.

For this new event, 2018 offered optimal weather conditions. The season started with average rainfall in winter and spring, which provided favorable conditions for bud break and fruit onset. Minimum temperatures were mild throughout the season, and luckily we didn't suffer any frost episode. The main characteristic of the summer was that temperatures remained slightly below average, which allowed grapes to ripen slowly. This factor, combined with a great after season with no precipitations, was determining for the harvest timing that started rather late once the grapes had developed fully and reached optimal phenolic ripeness.

### ■ WINE MAKING SCHEME

This fine wine is made with the same care as our Bordeaux Grand Crus. Grapes are closely monitored when reaching maturity in order to find the optimal balance between phenolic ripeness and acidity. After careful sorting and destemming, grapes are placed in stainless steel tanks for fermentation. Regular pump-over ensure a gentle extraction of the tannins. After malolactic fermentation, 50% of the wine is transferred into French oak barrels for a period of 12 months.

### ■ TASTING NOTES

Intense ruby-red colour with glints of garnet.

Initially the nose presents scents of fresh strawberry, red cherry, gooseberry and blue flowers. Then subtle notes of bay, tobacco, caramel and graphite emerge. On the palate, the wine is generous with soft yet lively tannins, leading into a long, lingering finish.

#### TECHNICAL INFORMATION

**Varietals :** Cabernet sauvignon 85%, Syrah 10%, Carménère 5%

**Alcohol content :** 14.5 % vol.

**pH :** 3.60

**Total acidity :** 3.15 g/l
