## PINOT NOIR D.O. VALLE DE LEYDA 2024

At Los Vascos, generation after generation, we dedicate ourselves to caring for our vineyards and orchards, preserving our unique ecosystem. We are committed to our land and to the well-being of our rural community. Together, we cultivate to sow the future.

### ■ VINEYARD ATTRIBUTES

**Appellation** : San Antonio, Chile

The vineyard is nestled in Leyda, one of Chile's burgeoning wine regions within the San Antonio Valley. Located to the west of the Coastal Range, the vineyard is positioned 11 km from the Pacific Ocean and 6 km from the Maipo River. Cloudy mornings and the cooling Humboldt Current moderate summer temperatures, keeping them below 24°C. This optimal climate allows for gradual grape maturation, resulting in wines with crisp acidity.

**Terroir** : The plot is located on a hilltop, characterized by a soil made of a clayey first horizon of fluvial origin and a second horizon of limon-sandy soil of granitic origin. The presence of active calcium carbonate between these horizons imparts a distinctive tension and texture to the wine.

### ■ WINE MAKING SCHEME

The grapes are hand-harvested and start being processed during the morning. They are placed in open vats after careful sorting and destemming, with 10% kept as whole bunch. The fermentation temperature does not exceed 25°C. No pumping over is performed; extraction is carried out only through gentle manual punch down. Maceration lasts around 15 days. Subsequently, the wine is racked and malolactic fermentation takes place. Once completed, the wine is transferred to cement tanks and 30% goes into first and second-use barrels of 400 and 500 L, specifically toasted for this variety, where it will undergo aging for 12 months.

#### TECHNICAL INFORMATION

**Varietals** : Pinot Noir 100%
