

CHATEAU PARADIS CASSEUIL

CHÂTEAU PARADIS CASSEUIL 2023

■ VINEYARD ATTRIBUTES

Appellation : AOC Bordeaux, France

Paradis Casseuil covers some sixty hectares to the south-east of Bordeaux in the heart of the Entre-deux-Mers region. The vineyard is spread out over three communes, whose landscape of hills and slopes is reminiscent of Tuscany.

Terroir : The Paradis Casseuil terroir is mainly linked to the molasse of the Agenais, a typical geological formation of the Entre-Deux-Mers plateau, but also to the Asteria limestone, which appears at the place called "Le Paradis".

Over the course of the blocks, these two formations have a wide variety of sedimentary facies: sandstone limestone, marl, clay with calcareous nodules, variegated magnesian molasse, etc.

The soils that develop here are usually very clayey and rich in calcium. They thus benefit from excellent structural porosity, which is favourable to deep root development, but also from a certain coolness.

■ WINE MAKING SCHEME

The water deficit significantly reduced the size of the berries, resulting in a substantial concentration of the tannins in the skins. Agility was required during the extractions, working with finesse and precision. Short macerations allowed to highlight the balance of this vintage, which combines richness with a fine tannic structure. The proportion of wine aged in oak was reduced compared to previous vintages to preserve the juicy character of the wine. A new milestone in the life of the estate.
