

PREMIER CRU VAILLONS 2022

The steep and rocky slopes stretching to the right and left of the Serein are the cradle of a history over one hundred and fifty million years old. A unique Kimmeridgian terroir, an alternation of marl and marly limestone, endows Chablis wines with a mineral character and immense freshness. A typicity that is envied, often imitated but never equalled. As incomparable and admirable as it may be, a terroir can only fully reveal its potential through the work of people. At Domaine William Fèvre, everything is done, regardless of the level of appellation, to express the authenticity of the Chablis terroirs.

■ VINEYARD ATTRIBUTES

Appellation : AOC Chablis Premier Cru Vaillons, Bourgogne, Chablis, France

An appellation of 129 hectares located on the left bank of the Serein. On the Côte des Vaillons, there are eight different named vineyards that can claim this appellation.

Terroir : Here, the soil is more calcareous than clayey, resting on hard, compact, and highly fractured Portlandian limestone (a soil layer covering the Kimmeridgian).

■ VINTAGE SUMMARY

After a relatively mild and very dry winter, the vine began to bud in the last week of March. Fortunately, at the end of March, just before the first frosts, the vintage showed a few days' delay compared to the average of the past 20 years. Despite the frost and cold, we observe a good emergence of clusters. Flowering took place at the end of May under excellent conditions, with little shatter or millerandage. The vine caught up and now shows a 10-day advance. August 31 marks the beginning of the harvest with all the teams. The sanitary condition is perfect, the skins are thick, and the grapes are pulpy with a good juice yield.

■ WINE MAKING SCHEME

Application of the principle of gravity to avoid any pumping that could alter the quality of the wine. Short pneumatic pressing (1h30 to 2h00) for a delicate separation between the solid and liquid parts of the grapes. Very light static settling to retain enough fine lees for the alcoholic and malolactic fermentations to proceed naturally. The must is placed in French oak barrels (on average 6 years old) for 30 to 40% of the cuvée. The remainder is vinified in small stainless steel tanks.

■ TASTING NOTES

Fresh and intense bouquet with notes of fruit and flowers combined with a touch of minerality. A refined wine, round and full on the palate.

TECHNICAL INFORMATION

Varietals : Chardonnay 100%
