

GRAND CRU VALMUR 2022

The steep and rocky slopes stretching to the right and left of the Serein are the cradle of a history over one hundred and fifty million years old. A unique Kimmeridgian terroir, an alternation of marl and marly limestone, endows Chablis wines with a mineral character and immense freshness. A typicity that is envied, often imitated but never equalled. As incomparable and admirable as it may be, a terroir can only fully reveal its potential through the work of people. At Domaine William Fèvre, everything is done, regardless of the level of appellation, to express the authenticity of the Chablis terroirs.

■ VINEYARD ATTRIBUTES

Appellation : AOC Chablis Grand Cru Valmur, Bourgogne, Chablis, France

Appellation of 13.19 hectares in the midst of the Grands Crus. It forms a valley adjacent to that of Vaudésir, with its tip connecting to Les Clos. Its terroir is divided into two sections, on either side of the chemin de la fontaine Sainte Vaubourg. Its shape resembles that of a small valley, which is where the name Valmur comes from.

Terroir : The clay-limestone soils are deeper and brown at the bottom, whereas at the top they are lean and white. At the summit of Valmur, the marly vein outcrops. A plot of 1.15 hectares, representing 9% of the total appellation, is exposed to the south/southeast.

■ VINTAGE SUMMARY

After a relatively mild and very dry winter, the vine began to bud in the last week of March. Fortunately, at the end of March, just before the first frosts, the vintage showed a few days' delay compared to the average of the past 20 years. Despite the frost and cold, we observe a good emergence of clusters. Flowering took place at the end of May under excellent conditions, with little shatter or millerandage. The vine caught up and now shows a 10-day advance. August 31 marks the beginning of the harvest with all the teams. The sanitary condition is perfect, the skins are thick, and the grapes are pulpy with a good juice yield.

■ WINE MAKING SCHEME

Application of the principle of gravity to avoid any pumping, which could alter the quality of the wine. Short-duration pneumatic pressing (1.5 to 2 hours) for a delicate separation between the solid and liquid parts of the grapes. Placing the musts in French oak barrels (on average 6 years old) for 50 to 60% of the blend. The remainder is vinified in small stainless steel tanks. Aging for 14 to 15 months, including 5 to 6 months on fine lees in French oak barrels for 50 to 60% of the blend. The aging process is completed in small stainless steel tanks.

■ TASTING NOTES

Charming bouquet with surprising fruitiness and a good mineral presence. The powerful and robust palate is elegant and round.

TECHNICAL INFORMATION

Varietals : Chardonnay 100%
