

GRAND CRU LES PREUSES DOMAINE 2022

The steep and rocky slopes stretching to the right and left of the Serein are the cradle of a history over one hundred and fifty million years old. A unique Kimmeridgian terroir, an alternation of marl and marly limestone, endows Chablis wines with a mineral character and immense freshness. A typicity that is envied, often imitated but never equalled. As incomparable and admirable as it may be, a terroir can only fully reveal its potential through the work of people. At Domaine William Fèvre, everything is done, regardless of the level of appellation, to express the authenticity of the Chablis terroirs.

■ VINEYARD ATTRIBUTES

Appellation : AOC Chablis Grand Cru Preuses, Bourgogne, Chablis, France

Appellation of 11.44 hectares located on the heights of the Côte des Grands Crus. Its name likely originates from a deformation of the word "perreuse" (stone), which referred to the old Roman road that passed at the foot of the current terroir. The wines are long and elegant.

Terroir : The soil is composed of dense and compact clay resting on a limestone slab, making it a Grand Cru with exceptional aging potential. The plots cover 2.55 hectares, representing 22% of the total appellation, with a southwest exposure for the northernmost plots and south/southeast for the others.

■ VINTAGE SUMMARY

After a relatively mild and very dry winter, the vine began to bud in the last week of March. Fortunately, at the end of March, just before the first frosts, the vintage showed a few days' delay compared to the average of the past 20 years. Despite the frost and cold, we observe a good emergence of clusters. Flowering took place at the end of May under excellent conditions, with little shatter or millerandage. The vine caught up and now shows a 10-day advance. August 31 marks the beginning of the harvest with all the teams. The sanitary condition is perfect, the skins are thick, and the grapes are pulpy with a good juice yield.

■ WINE MAKING SCHEME

Application of the principle of gravity to avoid any pumping, which could alter the quality of the wine. Short-duration pneumatic pressing (1.5 to 2 hours) for a delicate separation between the solid and liquid parts of the grapes. The vinifications are carried out in stainless steel vats. Aging lasts 19 months, including 5 to 6 months on fine lees in French oak barrels for 35% of the blend. The aging process finishes in small stainless steel tanks.

■ TASTING NOTES

Floral nose with fruit aromas enhanced by intense mineral notes evolving into slightly smoky touches. The palate is notably round, both robust and refined.

TECHNICAL INFORMATION

Varietals : Chardonnay 100%
